SCHOOL DISTRICT LEGAL STATUS

The United States Constitution leaves to the individual states responsibility for public education.

The Ohio General Assembly is under mandate by the Constitution of Ohio to provide for the organization, administration and control of a public school system supported by public funds. The Ohio State Constitution also calls for a State Board of Education and a Superintendent of Public Instruction.

The General Assembly has outlined the duties of the State Board of Education and the Chief State School Officer. It has also established a State Department of Education (through which policies and directives of the State Board and Superintendent of Public Instruction are administered) and has established specific types of school districts.

The Alexander Local School District is classified as a local school district operating under the supervision of the Athens-Meigs Educational Service Center. The District is governed by a locally elected Board of Education.

COMMUNITY INVOLVEMENT IN DECISION MAKING

Community participation in the schools is essential to promote and maintain the quality of education for all students.

In addition to electing fellow citizens to represent them on the Board, all citizens may express ideas, concerns and judgments about the schools to the administration, to the staff, to any appointed advisory bodies and ultimately to the Board. Ideas should be addressed to the responsible individual in an appropriate fashion.

Residents may be invited by the Board to act as advisors, individually and in groups, in such areas as:

1. clarifying general ideas and attitudes held by residents in regard to the schools;
2. developing Board policies under which the school system is to be managed;
3. establishing administrative arrangements and regulations designed to help implement these policies;
4. determining the purposes of courses of study and special services to be provided for students;
5. evaluating the extent to which these purposes are being achieved by present policies and/or
6. solving a specific problem or set of closely related problems about which a decision must be made.

The Board gives consideration to the advice it receives from individuals and community groups. Final authority for all decisions rests with the Board.

STAFF INVOLVEMENT IN DECISION MAKING

The District involves the efforts of many people and functions best when all personnel are informed of the major activities and concerns.

There should be an exchange of ideas and pertinent information among all elements of a school district. Problems and unfavorable attitudes develop when employees are denied information essential for the performance of their respective assignments or when they feel that their ideas and concerns are not heard. Morale is enhanced when employees are assured that their voices are heard by those in positions of administrative authority.

A pattern of decision making and problem solving close to the task also contributes to efficiency and high morale.

While all employees have the opportunity to bring their ideas or grievances to the Board, they are expected to proceed through the recognized administrative channels. Final authority for all decisions rests with the Board.

STUDENT INVOLVEMENT IN DECISION MAKING

Students share responsibility for developing a climate in the school which is conducive to learning. Through participation in the decision-making process, students can be an important resource for the improvement of the school, the educational system and the community. Periodically, students may be asked to review school policies, rules and regulations. Final authority for all decisions rests with the Board.

A maximum of two students may be elected to serve on the Board as a representative for the student body to better facilitate communication between the Board and the students, to increase awareness of the democratic process within the District and to improve the opportunity for participation in the decision-making process.

The student representative must be a high school student elected by the student body to serve for a one year term.

STUDENT INVOLVEMENT IN DECISION MAKING

Guidelines:

1. A maximum of two students may be elected by the student body of Alexander High School to serve as student representatives to the Alexander Local School District Board of Education.
2. Student membership on the Board is limited to Junior and Senior students.
3. The term of office for student Board members will be one year, from June 1 to May 30.
4. The number of student Board members (one or two) and the method for electing them is determined by the student council. The procedure must be reviewed and approved by the Alexander High School Principal or designee.
5. Student Board members are non-voting members of the Board and their role is advisory. Student Board members are expected to serve as liaisons between the Board and the students of the District through appropriate communication with the student council and/or the student body of each school about matters of student interest.
6. Student Board members are expected to attend all public meetings of the Board. If two student Board members are elected, at least one is expected to be in attendance at each public meeting of the Board. Any student Board member who is absent from three consecutive regular Board meetings may be recalled by the student council.
7. Student Board members do not participate in Board meetings or discussions from which the general public is excluded (for example, Executive Sessions).
8. Student Board members may not introduce motions, but may make reports and introduce topics for discussion.
9. Student Board members do not receive payment for their services as do the locally elected members of the Board.
10. Student Board members may be appointed to committees of the Board at the discretion of the Board President.
11. The student council can recall a student Board member from its high school. The process of such recall is determined by the principal or designee.
12. The Board reserves the right to bar the participation of a student member if actions of said student member are unacceptable to the Board.

(Approval date: August 21, 2008)

NONDISCRIMINATION

The Board's policy of nondiscrimination extends to students, staff, job applicants, the general public and individuals with whom it does business and applies to race, color, national origin, ancestry, citizenship status, religion, sex, economic status, age, disability or military status.

The Board does not discriminate on the basis of legally acquired genetic information.

The Board does not permit discriminatory practices and views harassment as a form of discrimination. Harassment is defined as intimidation by threats of or actual physical violence; the creation, by whatever means including the use of electronic communications devices, of a climate of hostility or intimidation; or the use of language, conduct or symbols in such a manner as to be commonly understood to convey hatred, contempt or prejudice or to have the effect of insulting or stigmatizing an individual.

Employees or students who engage in discrimination of another employee or student shall be subject to disciplinary action.

Permission, consent or assumption of risk by an individual subjected to discrimination does not lessen the prohibition contained in this policy.

No one shall retaliate against an employee or student because he/she files a grievance; assists or participates in an investigation, proceeding or hearing regarding the charge of discrimination of an individual; or because he/she has opposed language or conduct that violates this policy.

Grievance Procedure

For resolution of complaints alleging discrimination on the basis of race, sex, disability, religion, national origin, or other human difference an employee, student or parent on behalf of the student, who has a complaint and is unable to solve the issue, is to submit the complaint in writing to the compliance officer (Title VI, Title IX, Section 504 coordinator).

The compliance officer's responsibility is to:

1. investigate within one week the circumstances of the complaint;
2. render a decision within two weeks after receipt of the complaint and notify the complainant of that decision in writing and
3. provide the complainant one week to react to the decision before it becomes final.

The complainant's responsibilities are to:

1. accept the decision in writing, addressed to the compliance officer, within one week of receiving the written decision or
2. disagree with the decision in writing, addressed to the compliance officer, within one week of receiving the written decision. In this case, the level two procedure is initiated.

Level Two

The compliance officer requests the Superintendent to review the complaint. A meeting is scheduled within one week of the receipt of request for review. The participants are the complainant, the compliance officer and the Superintendent. The Superintendent makes a decision within one week. The complainant and the compliance officer receive copies of the decision.

A complaint may be withdrawn in writing, addressed to the compliance officer, by the complainant at any time.

If the complaint has not been satisfactorily resolved in the above stages, the student or employee may appeal in writing directly to the Office of Civil Rights.

NONDISCRIMINATION ON THE BASIS OF SEX

The U.S. Department of Education has published regulations for implementing Title IX of the Education Amendments of 1972, which prohibits sex discrimination in federally assisted education programs.

Title IX states, in part: “No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of or be subjected to discrimination under any education program or activity receiving federal financial assistance.”

The Board ensures compliance with Title IX of the Education Amendments of 1972, Title VI of the Civil Rights Act of 1964 and the regulations promulgated through the U.S. Department of Education.

SEXUAL HARASSMENT

All persons associated with the District, including, but not limited to, the Board, the administration, the staff and the students, are expected to conduct themselves at all times so as to provide an atmosphere free from sexual harassment. Sexual harassment, whether verbal or nonverbal, occurring inside or outside of District buildings, on other District-owned property or at school-sponsored social functions/activities, is illegal and unacceptable and will not be tolerated. Any person who engages in sexual harassment while acting as a member of the school community is in violation of this policy.

Definition of Sexual Harassment: Unwelcome sexual advances, requests for sexual favors or other verbal or physical conduct of a sexual nature may constitute sexual harassment when:

1. submission to such conduct is made, either explicitly or implicitly, a term or condition of a person's employment or educational development;
2. submission to, or rejection of, such conduct by an individual is used as the basis for employment or education decisions affecting such individual or
3. such conduct has the purpose or effect of unreasonably interfering with an individual's work or educational performance or creating an intimidating, hostile or offensive environment.

Examples of sexual harassment-type conduct may include, but are not limited to, unwanted sexual advances; demands for sexual favors in exchange for favorable treatment or continued employment; repeated sexual jokes, flirtations, advances or propositions; verbal abuse of a sexual nature; graphic verbal commentary relating to an individual's body, sexual prowess or sexual deficiencies; coerced sexual activities; any unwanted physical contact; sexually suggestive or obscene comments or gestures; or displays in the workplace of sexually suggestive or obscene objects or pictures. Whether any act or comment constitutes sexual harassment-type conduct is often dependent on the individual recipient.

The Grievance Officer: The Board directs the Superintendent to appoint one or more sexual harassment grievance officers who are vested with the authority and responsibility for investigating all sexual harassment complaints in accordance with the procedures set forth in the accompanying regulation and staff and student handbooks.

Sexual harassment matters, including the identity of both the charging party and the accused, are kept confidential to the extent possible. Although discipline may be imposed against the accused upon a finding of guilt, retaliation is prohibited.

The Board has developed complaint procedures which are made available to every member of the school community. The Board has also identified disciplinary penalties which could be imposed on the offenders.

SEXUAL HARASSMENT

All sexual harassment complaints are investigated in accordance with the following procedure:

1. Any member of the school community who believes that he/she has been subjected to sexual harassment shall report the incident(s) to the appropriate grievance officer.
2. The grievance officer attempts to resolve the problem through the following process.
 - A. The grievance officer promptly confers with the charging party in order to obtain a clear understanding of that party's statement of the alleged facts. The statement is put in writing by the grievance officer and signed by the charging party as a testament to the statement's accuracy.
 - B. The grievance officer meets with the charged party in order to obtain his/her response to the complaint. The response is put in writing by the grievance officer and signed by the charged party as a testament to the statement's accuracy.
 - C. The grievance officer holds as many meetings with the parties and witnesses (if any) as are necessary to gather facts. The dates of meetings and the facts gathered are all put in writing.
 - D. On the basis of the grievance officer's perception of the problem, he/she will:
 - 1) bring both parties together and attempt to resolve the matter informally through conciliation or
 - 2) formally notify the parties by certified mail of his/her official action relative to the complaint.
3. If either party disagrees with the decision of the grievance officer, he/she may appeal to the Superintendent/designee. After reviewing the record made by the grievance officer, the Superintendent/designee may attempt to gather further evidence necessary to decide the case and to determine appropriate action to be taken. The decision of the Superintendent/designee is final.

If any of the named officials are the charged or charging party, the Board designates an alternate investigator and retains final decision-making authority.

All matters involving sexual harassment complaints remain confidential to the extent possible.

(Re-approval date: May 17, 2007)

NONDISCRIMINATION ON THE BASIS OF DISABILITY

The Board maintains that discrimination against a qualified person with a disability solely on the basis of disability is unfair. To the extent possible, a qualified person with a disability should be in the mainstream of life in a school community. In addition, the District is the recipient of federal funds and therefore must be in compliance with all laws and regulations which deal with disabled individuals.

Accordingly, employees of the District comply with the law and Board policy to ensure nondiscrimination on the basis of disability. The following is expected.

1. No one discriminates against qualified persons with a disability in any aspect of school employment solely on the basis of disability.
2. Facilities, programs and activities are made available to qualified persons with a disability.
3. Free appropriate public education at elementary and secondary levels, including nonacademic and extracurricular services and activities, are provided to qualified persons with a disability.
4. No one excludes any qualified person with a disability, solely on the basis of disability, from participation in any preschool education, day care, adult education or career-technical education program.
5. Each qualified person with a disability is provided with the same health, welfare and other social services which are provided to others.

DEVELOPMENT OF PHILOSOPHY OF EDUCATION

The Board's philosophy of education gives direction to the educational program and daily operations of the District.

Periodically, the policy committee of the Board and the Superintendent evaluate the philosophy of education. Suggestions from both the staff and community are considered.

The committee revises or confirms the existing philosophy or writes a new statement of philosophy. The committee presents its recommendation regarding a philosophy of education to the Board for adoption or re-adoption.

All building and course of study philosophies reflect and extend the Board's philosophy. The Superintendent disseminates the Board's philosophy of education to all staff members and directs that it be published in all handbooks.

MISSION STATEMENT

Alexander Local School District embraces quality education as its highest priority and seeks to provide students with experiences that promote respect, responsibility and the necessary skills to become productive citizens who engage in lifelong learning.

COMMITMENT TO ACCOMPLISHMENT

Evaluation of District operations is a chief responsibility of the Board and is the only means of determining whether the educational goals adopted are being achieved.

The evaluation program may include, but is not limited to, the following areas.

1. curriculum and instruction
2. students, dropouts and graduates
3. school personnel
4. buildings and equipment
5. business operations
6. operations of the Board

Appraising the success of the instructional program is particularly important. Only through an awareness of the strengths and shortcomings of the program can the Board and Superintendent have a sound basis for making improvements. The improvements are made by the Superintendent through the implementation of policies adopted by the Board.

The Board:

1. assesses the District's operations and achievement of goals by information gathered from the Superintendent and Treasurer;
2. evaluates the Superintendent and Treasurer according to job descriptions and Board expectations and
3. evaluates itself according to its established goals and purposes.

EVALUATION OF SCHOOL BOARD OPERATIONAL PROCEDURES

Boards of education expect a high level of performance from those who are employed to run the schools. School patrons and other taxpayers also expect a high level of performance from those who are elected to govern the schools.

Ultimately, the performance of an individual Board member is measured at election time. However, that is not enough. Each Board should set aside some time on a regular basis to compare individual assessments of how well the governing body is functioning. The instrument or scoring system is not important. What is important is for the Board to establish a plan to regularly analyze its method of operation. The results of evaluation should be used in setting goals for improved operations in the future.

EVALUATION OF ADMINISTRATIVE/INSTRUCTIONAL STAFF
(Administrators Both Administrative/Instructional and Support)

The Superintendent institutes and maintains a comprehensive program for the evaluation of administrative personnel. Administrative personnel are all persons issued contracts in accordance with the Ohio Revised Code, including the following: assistant superintendents, principals, assistant principals and all other personnel required to maintain certificates/licenses in order to be employed as pupil-personnel workers and educational administrative specialists (provided that such person spends less than 50% of his/her time teaching or working with students) and any other employee whose duties enable him/her to be considered either a "supervisor" or "management-level employee" excluded from all of the employee bargaining units. In addition, evaluations should assist administrators in developing their administrative/instructional abilities in order to increase the effectiveness of District management.

The purpose of administrator evaluations is to assess the performance of administrators, to provide information upon which to base employment and personnel decisions and to comply with the requirements of State law. All administrators are evaluated annually. In the year an administrator's contract does not expire, the evaluation is completed by the end of the contract year, and a copy is given to the administrator. In the year an administrator's contract does expire, two evaluations are completed, one preliminary and one final. The preliminary evaluation is conducted at least 60 days prior to March 31 and prior to any Board action on the employee's contract. Evaluations are considered by the Board in determining whether to re-employ administrators.

The final evaluation includes the Superintendent's intended recommendation for the contract of the employee. A written copy of the final evaluation must be provided to the employee at least five days prior to the Board's action to renew or nonrenew the employee's contract. The employee may request a meeting with the Board prior to any Board action on his/her contract. The employee may have a representative of his/her choice at the meeting.

The evaluation measures the administrator's effectiveness in performing the duties included in his/her written job description and the specific objectives and plans developed in consultation with the Superintendent. The evaluations are conducted annually by the Superintendent/designee.

Evaluation criteria for each position are in written form and are made available to the administrator. The results of the evaluations are kept in personnel records maintained in the central office. The evaluated administrator has the right to attach a memorandum to the written evaluation. Evaluation documents, as well as information relating thereto, are accessible to each evaluatee and/or his/her representative.

EVALUATION OF ADMINISTRATIVE/INSTRUCTIONAL STAFF
(Administrators Both Administrative/Instructional and Support)

To assist administrators in the development of their administrative/instructional abilities, to provide information for employment decisions and to comply with mandates of State law, the following procedures are employed by the Superintendent/designee in evaluating administrative personnel.

1. An initial meeting is held by the Superintendent prior to the school year with the assistant superintendents and administrators to discuss specific measurable objectives and plans for their achievement. A statement of these objectives and plans is submitted by each administrator to the Superintendent/designee at a time specified. These objectives and plans are written and maintained in each administrator's personnel file.
2. The evaluator employs the evaluation criteria which are designed to measure the administrator's effectiveness in performing the duties set forth in his/her written job description. All administrators will be evaluated prior to the end of their contract year. The evaluator will also assess the administrator's progress in meeting plans and objectives set for that school year. Areas of outstanding, satisfactory and poor performance will be noted. The Superintendent/designee will meet with each administrator to discuss the written evaluation. The evaluatee is given a copy of the evaluation and has an opportunity to discuss it with the evaluator at this second meeting.
3. An ongoing dialogue concerning the administrator's objectives will continue and the evaluator and evaluatee will meet as needed or requested.
4. For those employees whose contracts are expiring at the end of the current school year, two evaluations must be completed. A preliminary evaluation must be received by the employee at least 60 days prior to any Board action on the employee's contract. A final evaluation must include the Superintendent's intended recommendation for the contract of the employee. A written copy of the final evaluation must be provided to the employee at least five days prior to the Board's action to renew or nonrenew the employee's contract.
5. The employee may request a meeting with the Board prior to any Board action on his/her contract. The employee may have a representative of his/her choice at the meeting.
6. Assistant superintendents, principals, assistant principals and other administrators are automatically re-employed if they are not evaluated according to State law or provided a meeting, if requested, to discuss their renewal or nonrenewal.
7. All evaluation criteria, procedures and written job descriptions are reviewed annually by the Superintendent/designee and revised as necessary.

EVALUATION OF SUPPORT STAFF

Regular evaluation of all support staff is intended to bring about improved services and to provide a continuing record of the service of each employee and evidence on which to base decisions relative to assignment and re-employment.

The Superintendent establishes a continuing program of performance evaluation for the support staff. The program includes written evaluations and a means of making the results known to the evaluated employee.

The services of all support staff employees are evaluated at least once each year. Procedures used in the evaluation process are subject to Board approval or in accordance with the negotiated agreement and/or State law.
